

Work with me!

DR. GENIE NICOLE GIAIMO

Workshops

I provide professional development to peer writing tutors, writing faculty, and instructors across the disciplines on writing pedagogy. I also offer interactive workshops on wellness, care work, and labor activism from my scholarly work.

Assessments

I am available for writing program and writing center external reviews, accreditation visits, advice and mentorship on program assessment, and consultancy on establishing new writing programs/initiatives.

Scholarly Talks

Interested in wellness, labor studies, and/or care work? Invite me to give a book talk (virtual or in-person) that includes a project overview, scholarly trajectory, and Q and A with the audience or a more personalized and interactive event based on *UnWell Writing Centers* (Utah State UP).
